Duties and Responsibilities:

- Encourage faculty members to publish research papers in peer-reviewed journals and reputed conferences indexed in SCI/Scopus.
- Promote a strong research culture by motivating faculty to secure funded research projects and research grants.
- Identify research ideas and address faculty members once every month, preferably on the 3rd Saturday from 3:00 PM to 5:00 PM.
- Facilitate sponsored research projects, grants, and consultancy work from public and private sector organizations.
- Guide faculty members and students on recent developments, emerging research trends, and future research prospects.
- Maintain comprehensive information on research activities undertaken by various departments and identify funding and knowledge transfer opportunities.
- Encourage internal and external research collaborations with academic, research, and industrial organizations.
- Ensure suitable strategies and policies for attracting, recruiting, and retaining quality researchers.
- Support patent filing, intellectual property protection, licensing activities, and coordination of grant and contract submissions.
- Identify multidisciplinary research areas with growth potential and organize conferences, workshops, and symposiums.
- Collaborate with Heads of Departments to enhance national and international research collaboration and global knowledge transfer.
